

mobile lottery update

Increase ticket sales through mobile communication.

Increase ticket sales and enhance loyalty by keeping your lottery players informed of winning numbers, jackpot sizes, new games, promotions and retailer locations.

By sending updates via text, the information will always be in their pockets making Mobile Lottery Update an important initiative of any lottery director's marketing strategy.

The Objective

Mobile Lottery Update is all about servicing the player and creating a channel for ongoing communication. It is about increasing ticket sales, developing a relationship and increasing player loyalty.

Also, since the majority of lottery players don't have computer access, you can now be in constant contact with these individuals through their mobile phones.

The Cost

Mobile Lottery Update costs just pennies per notification – allowing you to send any message, to as many people, for any reason, at any time.
